## **Water and Wastewater Systems Sector**

9. *March 12, Woodlands Villager* – (Texas) **300K gallons of wastewater spill out in The Woodlands.** The San Jacinto River Authority reported that 300,000 gallons of household wastewater spilled March 11 from a collapsed manhole and entered a nearby drainage ditch in The Woodlands, Texas, prompting crews to install bypass pumping equipment and clear out the wastewater, soil, and portions of the collapsed concrete manhole in order to make repairs. Officials believe that the spill could have been caused by a failed force main connection and are continuing to investigate.

## **Healthcare and Public Health Sector**

11. *March 13, Bend Bulletin* – (Oregon) **Mosaic Medical patient records possibly breached.** Mosaic Medical announced March 12 that the personal information of over

2,200 patients may have been accessed after employees discovered a break-in at the Health Information Technology department office in Bend January 15. Officials reported that nothing was stolen from the office but paper documents with medical insurance information, email addresses, and phone numbers could have been accessed. Source: <http://www.bendbulletin.com/home/2970752-151/mosaic-medical-patient-records-possibly-breached>

12. *March 12, KRON 4 San Francisco* – (California) **Possible Hepatitis A outbreak in Napa.** Napa County Public Health officials are investigating March 12 after reports of 5 confirmed cases of Hepatitis A in Napa in the last 2 weeks. Two of the cases involved employees from BANK Cafe and Bar and La Toque restaurant, and there are no known cases involving customers. Source: <http://kron4.com/2015/03/12/possible-hepatitis-a-outbreak-in-napa/>

## **Government Facilities Sector**

13. *March 12, WHDH 7 Boston* – (Massachusetts) **Somerville school to close for 1 month after roof collapse.** A partial roof collapse March 10 prompted officials to close the Brown School in Somerville for one month after the school superintendent notified parents that classes were canceled and the school was blocked off. Inspectors were assessing the damage and the cause of the partial roof collapse, which was attributed to melting snow and ice and weakened wood rafters due to pre-existing partial rotting of the roof. Source: <http://www.whdh.com/story/28393637/brown-school-closed-in-somerville-after-partial-roof-collapse>
14. *March 12, KING 5 Seattle* – (Washington) **100-plus college students exposed to TB face testing.** Public Health-Seattle & King County announced March 12 that nearly 110 students at North Seattle College in Washington will be tested for tuberculosis as a precaution after the school reported that one person was diagnosed with the disease. Source: <http://www.usatoday.com/story/news/nation/2015/03/12/at-least-100-college-students-tested-after-tb-exposure/70237642/>

## **Information Technology Sector**

17. *March 13, Softpedia* – (International) **Google leaks Whois data for over 282,000 protected domains.** Cisco Systems' Talos researchers reported to Google that private information such as names, physical and email addresses, and phone numbers belonging to 282,867 domains registered through Google Apps' registrar, eNom, were leaked for nearly two years due to a software defect that did not extend the company's unlisted registration service, potentially exposing them to spam, spear-phishing attacks, or identity theft.  
Source: <http://news.softpedia.com/news/Google-Leaks-Whois-Data-for-Over-282-000-Protected-Domains-475710.shtml>
18. *March 13, Softpedia* – (International) **TeslaCrypt ransomware encrypts files of over 20 games.** Security researchers at Bromium discovered that crypto-ransomware dubbed TeslaCrypt has targeted a total of 185 extensions in over 20 popular games with drive-by attacks through Adobe Flash Player and Internet Explorer exploits dropped by the Angler exploit kit. The malware apparently attempts to pass as the more infamous CryptoLocker, but researchers stated that the two variants only share 8 percent similarity.  
Source: <http://news.softpedia.com/news/TeslaCrypt-Ransomware-Encrypts-Files-of-Over-20-Games-475738.shtml>
19. *March 13, Securityweek* – (International) **Adobe fixes critical Flash Player vulnerabilities.** Adobe released security updates patching 11 critical flaws, including memory corruption vulnerabilities and type confusions that attackers could leverage for remote code execution to take control of affected systems.  
Source: <http://www.securityweek.com/adobe-fixes-critical-flash-player-vulnerabilities>
20. *March 12, Securityweek* – (International) **Google fixes privilege escalation vulnerabilities in Android 5.1 Lollipop.** Google released fixes in Android 5.1 Lollipop for two serious vulnerabilities in previous versions that could have allowed attackers to use integer overflows leading to heap memory corruptions to gain elevated privileges or cause denial-of-service (DoS) attacks on targeted systems.  
Source: <http://www.securityweek.com/google-fixes-privilege-escalation-vulnerabilities-android-51-lollipop>
21. *March 12, The Register* – (International) **Forget viruses: Evil USB drive 'fries laptops with a power surge'.** A Russian security researcher revealed a vulnerability with USB sticks which could potentially overload and damage a PC's sensitive inner electronics by

using an inverted direct current to direct current (DC-DC) converter and some capacitors through a foreign Web site, causing the USB to malfunction.
